January 19, 2022

Dear Current and Prospective Adult & Continuing Education Students,

Thank you for your interest in adult programs offered by the District School Board of Niagara.

Given the numerous challenges facing education throughout the pandemic, there will be significant changes to Adult & Continuing Education programs moving forward. We will no longer be offering in-person day school credit subjects like Mathematics, English, etc. during the day at the Lifetime Learning Centre in St. Catharines.

We want to support your learning journey, however. To that end, in semester 2, we will be offering adult e-learning courses in core subject areas, e.g., Mathematics, English. In-person night school and blended (partly online and partly in person) night school options will be available at the St. Catharines Collegiate with the support of a Student Success Teacher who will be there to assist students in person. We will also continue to offer Edvance classes for students 18 to 21.

To summarize, the options available to adult students wishing to complete their Ontario Secondary School Diploma will be:

1. Adult e-learning courses
2. Night School at the St. Catharines Collegiate
3. Edvance (for students 18 – 21)

Please continue to check the lifetimelearning.ca website for registration and course offering updates.
